10 years of hands-on experience as an iOS developer, with proven skills in crafting innovative mobile solutions as a developer and architect of iOS mobile applications across multiple industries. Extensive background with a deep understanding of iOS frameworks and the ability to deliver functional, intuitive, and user-friendly applications. Commitment to excellence with a passion for pushing the boundaries of mobile technology has consistently resulted in successful project outcomes and satisfied clients. Ready to deliver value, innovation, and growth to progressive teams and positioned at the crossroads of technical expertise, collaboration, and leadership.

- Swiftly adapts to diverse industries, demonstrating rapid knowledge acquisition and a strong aptitude for iOS application development and architecture.
- Will play a crucial role in team building, ensuring the onboarding of top-tier talent, and enjoy actively coaching and mentoring emerging developers by creating an engaging learning environment.
- Thrives in team settings with a clear appreciation for the synergies of pair programming that fosters innovation and excellence.
- Familiar with cutting-edge technologies such as SwiftUI, a demonstrated proficiency with MVC and MVVM, expertise in XCTest, and a broad understanding of numerous iOS frameworks, including iOS 15+.

TECHNICAL SKILLS

Swift, SwiftUI, Objective-C, Xcode & Interface Builder, Core Data, Core Animation, Core Graphics, UIKit, Auto Layout, API Integration, Push Notifications, XCTest, System Architecture, Git, Continuous Integration.

SOFT SKILLS & KEY COMPETENCIES

Problem-Solving, Attention to Detail, Communication, Teamwork, Adaptability, Time Management, Continuous Learning, User-Centric Mindset, Analytical Thinking, Project Management.

EXPERIENCE

iOS Developer

Dec 2023 – Present

Capital One - <https://apps.apple.com/us/app/capital-one-mobile/id407558537>

- Contributed to Capital One's flagship iOS app supporting millions of users
- Worked on bringing the business banking features to parity with web by developing new native flows
- Development with Swift and SwiftUI to build dynamic experiences for all device sizes
- Contributed to a large codebase following best practices for security, privacy, and performance
- Practiced test-driven development with 95% unit test coverage paired with well structured UI tests
- Extensive use of Combine and Reactive patterns to achieve consistent and logical code

Freelance iOS Developer

Dec 2022 – Dec 2023

Various proprietary clients, and:

Client: Washloft Inc. - <https://apps.apple.com/us/app/washloft/id1290033575>

- Description: "Washloft is the easiest and most convenient way to get your laundry and dry cleaning done. You can have your laundry or dry cleaning done within 24 hours at the tap of a button. Washloft is trusted by thousands of customers in the greater Boston area."
- Technologies & Tools: Swift, MVC, XCTest, Firebase, Stripe, PromiseKit.
- Achievements: 4.4/5 Stars on the App Store. Created the app from the ground up using Swift and MVC. Also created private apps for drivers and washing staff to manage orders from the consumer-facing app.
- Specializations: Data persistence, UI/UX design collaboration, payment processing.

iOS Developer

May 2019 – Oct 2021

Chewy - <https://appadvice.com/app/practicehub-by-chewy-health/1465172004>

- Collaborated cross-functionally to elevate development standards for all iOS developers.
- Championed advanced development concepts such as modularization and dependency injection.
- Engineered a Swift-based iOS app utilizing programmatic views, GraphQL, and MVC architecture.
- Offered paired programming to junior developers, elevating their proficiency in iOS development.
- Took charge of product ownership, built a team, and laid a solid foundation for a robust app.
- Spearheaded the creation of a design system, delivering shared UI components for development teams.
- Practiced test-driven development with high standards for code coverage in core components.

iOS Developer

Jul 2018 – Apr 2019

American Alliance of Football - <https://www.oko.design/aaf-mobile-app>

- Contributed to developing the company's flagship iOS app, previously listed on the App Store.
- Integrated real-time video capabilities to overlay live streams with telemetry and historical data.
- Designed a simulated game feature allowing users to wager on the outcome of each play.

iOS Development Manager

Jul 2017 – Dec 2017

American Well - <https://apps.apple.com/us/app/american-well-for-clinicians/id982388638>

- Served as the Development Manager for the "American Well for Clinicians" app.
- Led recruitment efforts, conducting interviews to expand the team.
- Organized and facilitated planning meetings to streamline project execution.
- Oversaw app releases and managed a dynamic team of 3-5 developers and QA professionals.
- Mentored and guided team members and interfaced with larger teams to liaise with project managers.

iOS Developer

Jan 2016 – Jun 2017

American Well - <https://apps.apple.com/us/app/american-well-for-clinicians/id982388638>

- Championed the refactoring of onboarding and authentication processes.
- Introduced continuous builds and linting to enhance code quality.
- Worked on the Provider Mobile product within a dedicated 3 to 5-person team, while also interfacing with multiple larger teams to lead the initiative to transition the project to Swift.

iOS Developer

Jan 2015 – Jan 2016

DrivOns

- Contributed to the development of the flagship iOS application crafted in Swift.
- Implemented dynamic views, custom transitions, and seamless integration with a proprietary REST API and conducted code audits to ensure optimal code quality.
- Assumed hiring responsibilities to strengthen the team while coordinating with the web development team for streamlined project execution.

EDUCATION

Bachelor of Science in Computer Science

Rensselaer Polytechnic Institute - Troy, NY
